

Memorandum

TO: Service List – FY 2027 Capital Budget
FROM: Gas Commission Staff
DATE: February 19, 2026
RE: **Transcript Request from Today's Hearing (TR-1-4)**

Please see the below transcript requests posed during today's hearing on the proposed FY 2027 Capital Budget. **Responses are due by February 24, 2026.** Thank you for your cooperation.

- TR-1 (To PGW) Regarding PGW's testimony that during the recent 15 day cold snap, without its LNG reserves, PGW would have had to spend approximately \$90 million to supply gas to its customers: Please quantify the impacts of this on the average PGW customer's monthly bill.
- TR-2 (To PGW) Regarding PGW's request for funding to replace the Richmond Liquefier, please explain in detail PGW's proposal for conditional funding for this project.
- TR-3 (To PGW) Is there a cost associated with keeping the current liquefier running until we have more information about the future of the project? If there is a cost, can you please clarify whether that amount is included in the capital budget?
- TR-4 (To PGW and the Public Advocate) Provide a schedule setting forth all adjustments to the proposed FY 2027 Capital Budget that you believe are supported by the record at this point, including a brief narrative describing each that references the record support, as well as a calculation showing the impact of each adjustment on the budget.
